ORAL PROJECT

Using materials with different shapes and colors, create a robot. Then, describe the actions it can do, and the shapes are formed for.

Example:

This is my robot. My robot's name is_____

(*Actions the robot can do*): My robot can dance, talk and cut.

(*The body parts formed by shapes*):

As head you can see one yellow square.

As eyes you can see two blue triangles.

As neck, you can see one red rectangle.

Etc.
